Extension Installation and Configuration:

The implementation of the extension consists of 1 component:

1. Installation of the extension by a Magaya representative, from the implementation department, the installation must be on the server of the customer and it will run under the NodeJS application.

CUSTOM FIELDS CONFIGURATION

The custom fields needed for this extension will be created by the installation of this extension. Any change on this custom field, might affect the usage of this extension

The custom field is located on the shipment section and it will be added automatically by the extension installation process.

Custom field name: mrn_number

Custom field name: dae_info

The mrn_number will record the combination of Master AirWaybill number + a consecutive number

The dae_info will record the valid dae number of the shipper of the shipment, the validation will be based on the destination country and the expiration date of the dae. The list of all daes will be recorded in a config.json file located in the server of the customer, on a extensions-data folder

Usage of the Extension

DAE

The steps below are to assign a dae number to a shipment

- Create a Air/Ocean Export Shipment
- Fill all required fields on the master
 - Entities
 - Shipper
 - Routing Tab
 - Destination Port

Once this step is complete, you may go to Actions – Extensions – DAE – Get DAE

The screenshot displays the Magaya software interface. The top navigation bar includes tabs for Master, Houses, Docum., Profit, Liquidation Transactions, Customs, Commodities, and Actions. The 'Actions' tab is active, and a dropdown menu is open, showing options like 'Set/Reset In Transit', 'Set/Reset Received', 'Set/Reset Delivered', 'Set As Incoming', 'Set As Outgoing', 'Add to job...', 'Reception...', 'Release...', 'Reports', 'History...', 'Verify Charges...', 'Denied Party Screening', 'eAWB', 'Cargo Insurance', and 'Extensions'. The 'Extensions' option is highlighted, and a sub-menu is visible with 'DAE' selected, leading to 'Get DAE' and 'Get MRN'. The main window shows a shipment form with fields for Shipment Name (T130030 Flore del Caribe CDG/28), Carrier (IBERIA LINEAS AEREAS DE ESPANA S.A.), Air Waybill Number (075-84426646), Booking Number, Executed Place (Quito), Executed By (Cesar Gonzalez - A), Executed Date (2/28/2013), Declared Value for Carriage, Special Handling, and Description of Goods (Cut flowers rush perishable).

The following screen will show, allowing you to get the current DAE or add a new one with the correspondent expiration date
